About the Journal

The Journal of Wildlife Science (JWLS) is dedicated to advancing wildlife science and conservation through rigorous, evidence-based research across taxa and ecosystems. The journal operates on a diamond open-access model, meaning neither authors nor readers incur fees for accessing or publishing in JWLS. In a departure from the traditional pay-to-publish or pay-to-read models, our mission is to foster open and free access to high-quality, peer-reviewed interdisciplinary research in wildlife science, conservation, and management. We provide an inclusive, author-friendly platform welcoming original articles, reviews, commentaries, policy briefs, and novel paper types like Methods Papers, Natural History Notes, and Academic Practices in Wildlife Science. Our unique peer review approach emphasises constructive mentorship between authors and reviewers to elevate quality while fostering a collaborative research community.

JWLS is a quarterly publication with an online-first feature (publishing online as soon as the article is accepted). Therefore, the authors can submit their latest findings, insights, and perspectives for publishing in JWLS at any time.

Aim and Scope

JWLS does not categorise research into taxonomic classes. Authors working on any wildlife taxa, community or ecosystems can submit their work under a theme of JWLS. See the list of themes at <https://jwls.in/author-guidelines>.

Submission Guidelines

Authors interested in submitting their work to JWLS are encouraged to review the updated submission guidelines at <https://jwls.in/author-guidelines>.

Manuscripts should be submitted online through our submission system (<https://www.editorialmanager.com/jwls/>), and all submissions will undergo rigorous peer review.

Content

Research Articles

1. [Putting ducks in a row: Village resettlement prioritization from inside tiger reserves and its implication in achieving global conservation goals for India](#)
Dibyendu Mandal, Parag Nigam, Pradeep K. Malik & Bilal Habib..... 104
2. [The sacred and the wild: Unpacking human-wildlife interaction in Indian part of Kailash Sacred Landscape](#)
Ajaz Hussain, Mriganka Shekhar Sarkar, B. S. Adhikari, S. Sathyakumar & G. S. Rawat 111
3. [Area sharing among tigers in re-introduced population of Sariska tiger reserve demonstrating space crunch in Human dominated landscape](#)
Gobind Sagar Bhardwaj, Hemant Singh, Anand Kumar, Gokulakkannan Neduncheran, Seduram Yadav & Sudarshan Sharma..... 122

Short Communications

4. [Building the baseline: Assessment of ungulate densities in Amangarh Tiger Reserve, Uttar Pradesh, India](#)
Sajid Reza, Vijay Pratap Singh, Meraj Anwar & Afifullah Khan 131
5. [Determining the age classes of free-ranging female nilgai \(*Boselaphus tragocamelus*\) in southern Texas, USA](#)
Megan M. Granger, Clayton D. Hilton, Scott E. Henke, Humberto L. Perotto-Baldivieso, Landon R. Schofield & Tyler A. Campbell..... 135

Natural History Note

6. [Alloparental behaviour of an adult male Rhesus Macaque \(*Macaca mulatta*\)](#)
Prerna Sharma & M.V. Bajjuraj..... 141
