About the Journal

The Journal of Wildlife Science (JWLS) is dedicated to advancing wildlife science and conservation through rigorous, evidence-based research across taxa and ecosystems. The journal operates on a diamond open-access model, meaning neither authors nor readers incur fees for accessing or publishing in JWLS. In a departure from the traditional pay-to-publish or pay-to-read models, our mission is to foster open and free access to high-quality, peer-reviewed interdisciplinary research in wildlife science, conservation, and management. We provide an inclusive, author-friendly platform welcoming original articles, reviews, commentaries, policy briefs, and novel paper types like Methods Papers, Natural History Notes, and Academic Practices in Wildlife Science. Our unique peer review approach emphasises constructive mentorship between authors and reviewers to elevate quality while fostering a collaborative research community.

JWLS is a quarterly publication with an online-first feature (publishing online as soon as the article is accepted). Therefore, the authors can submit their latest findings, insights, and perspectives for publishing in JWLS at any time.

Aim and Scope

JWLS does not categorise research into taxonomic classes. Authors working on any wildlife taxa, community or ecosystems can submit their work under a theme of JWLS. See the list of themes at <https://jwls.in/author-guidelines>.

Submission Guidelines

Authors interested in submitting their work to JWLS are encouraged to review the updated submission guidelines at <https://jwls.in/author-guidelines>.

Manuscripts should be submitted online through our submission system (<https://www.editorialmanager.com/jwls/>), and all submissions will undergo rigorous peer review.

Content

Commentary

1. [Connectivity conservation through linear infrastructure mitigation: Taking small steps for a giant conservation effort](#)
Bilal Habib, Akanksha Saxena 62

Review Article

2. [Current Perspectives in the Forensic Analysis of Timbers using Vibrational Spectroscopy: A Review](#)
Arti Yadav, Sweety Sharma, Lovlish Gupta, Vaibhav Singh, Rajinder Singh 69

Research Articles

3. [Home range and seasonal movement of *Nanorana vicina* \(Stoliczka, 1872\) \(Anura: Dicroglossidae\) in Himalayan streams, India](#)
Swati Nawani, Deb Shankha Goswami, Arup Das, Krishnendu Banerjee, Abhijit Das 81
4. [Activity budget and habitat use in the Nicobar long-tailed macaque *Macaca fascicularis umbrosus*](#)
Avadhoot D. Velankar, Honnavalli N. Kumara, V.R. Sheethal, Arijit Pal, Partha Sarathi Mishra, Mewa Singh 87

Short Communication

5. [Addressing Human-Elephant Conflict in Sarpang, Bhutan: Challenges and Practices](#)
Ugyen Tshering, Rupali Thakur, Sonali Ghosh, Anukul Nath 96

Short Note

6. [Free-ranging Spotted Deer \(*Axis axis*\) in Chennai, India](#)
Rosella Daniels, Sarangan Prabakaran 102
