About the Journal

The Journal of Wildlife Science (JWLS) is dedicated to advancing wildlife science and conservation through rigorous, evidence-based research across taxa and ecosystems. The journal operates on a diamond open-access model, meaning neither authors nor readers incur fees for accessing or publishing in JWLS. In a departure from the traditional pay-to-publish or pay-to-read models, our mission is to foster open and free access to high-quality, peer-reviewed interdisciplinary research in wildlife science, conservation, and management. We provide an inclusive, author-friendly platform welcoming original articles, reviews, commentaries, policy briefs, and novel paper types like Methods Papers, Natural History Notes, and Academic Practices in Wildlife Science. Our unique peer review approach emphasises constructive mentorship between authors and reviewers to elevate quality while fostering a collaborative research community.

JWLS is a quarterly publication with an online-first feature (publishing online as soon as the article is accepted). Therefore, the authors can submit their latest findings, insights, and perspectives for publishing in JWLS at any time.

Aim and Scope

The journal does not categorise research based on taxonomic groups, allowing authors working on any wildlife taxa, ecological communities, or ecosystems to submit their work under a relevant theme.

<https://jwls.in/author-guidelines>.

Submission Guidelines

Authors interested in submitting their work to JWLS are encouraged to review the updated submission guidelines at <https://jwls.in/author-guidelines>.

Manuscripts should be submitted online through our submission system (<https://www.editorialmanager.com/jwls/>), and all submissions will undergo rigorous peer review.

Content

Commentary

1. *From afterthought to blueprint: Making wildlife-friendly linear infrastructure a design requirement, not post-hoc mitigation measures*
Bilal Habib & Akanksha Saxena 71

Review Article

2. *Wild animals in zoos: A new paradigm is needed for zoos in the future*
Werner Kaumanns, Nilofer Begum & Mewa Singh 75

Research Article

3. *Unveiling the Elusive: Density, Activity Patterns, and Human-Interactions of Striped Hyenas in Kappathagudda Wildlife Sanctuary*
Avril Amanna & Salvador Lyngdoh 82

Short Communication

4. *New larval host plant records for wild silkmoths from Arunachal Pradesh in the Indian Eastern Himalaya*
Hiren Gogoi, Sonu Singh, Tagam Dobiam & Abhaya Prasad Das 91

Natural History Note

5. *Records of Total Albinism in *Heteropneustes fossilis* (Bloch, 1794) from Upper Brahmaputra Valley, Assam, India*
Purbajyoti Saikia, Amir Sohail Choudhury, Diganta Hazarika, Jitu Chutia, Sanker Paul & Muhammed Khairujjaman Mazumder 96
6. *Caracal's Comeback – First photographic record of Caracal in the Ramgarh Visdhari and Mukundara Hills Tiger Reserve, India*
Rajrajeshwar Thakar, Mohit Kumar Patra, Dixit Verma, Ayan Sadhu, Sanjeev Sharma, Muthu Somasundaram, Ram Karan Khairwa, Sugna R. Jat, Lallianpuii Kawlani, Vishnupriya Kolipakam, Qamar Qureshi & Bilal Habib 100
