About the Journal

The Journal of Wildlife Science (JWLS) is dedicated to advancing wildlife science and conservation through rigorous, evidence-based research across taxa and ecosystems. The journal operates on a diamond open-access model, meaning neither authors nor readers incur fees for accessing or publishing in JWLS. In a departure from the traditional pay-to-publish or pay-to-read models, our mission is to foster open and free access to high-quality, peer-reviewed interdisciplinary research in wildlife science, conservation, and management. We provide an inclusive, author-friendly platform welcoming original articles, reviews, commentaries, policy briefs, and novel paper types like Methods Papers, Natural History Notes, and Academic Practices in Wildlife Science. Our unique peer review approach emphasises constructive mentorship between authors and reviewers to elevate quality while fostering a collaborative research community.

JWLS is a quarterly publication with an online-first feature (publishing online as soon as the article is accepted). Therefore, the authors can submit their latest findings, insights, and perspectives for publishing in JWLS at any time.

Aim and Scope

The journal does not categorise research based on taxonomic groups, allowing authors working on any wildlife taxa, ecological communities, or ecosystems to submit their work under a relevant theme.
https://jwls.in/author-guidelines.

Submission Guidelines

Authors interested in submitting their work to JWLS are encouraged to review the updated submission guidelines at https://jwls.in/author-guidelines.

Manuscripts should be submitted online through our submission system (https://www.editorialmanager.com/jwls/), and all submissions will undergo rigorous peer review.

Obituary

1. *In Memoriam: Dr. Ajith Kumar (6 June 1952 – 1 March 2025)*
Shivam Shrotriya, Mewa Singh 152

2. *Remembering Vinod Rishi, IFS (1946–2026)*
Raza Kazmi 153

Monograph

3. *Asian Elephants in Central India: A detailed history (From the earliest times to 1947)*
Raza Kazmi 155

Abstract

Introduction

Scope of the study

Study area
- *Madhya Pradesh*
- *Chhattisgarh*
- *Gujarat*
- *Maharashtra*

Historic distribution in central India
- *Ancient and Medieval Era (Madhya Pradesh, Gujarat, Maharashtra, Chhattisgarh)*
- *Colonial Era (Madhya Pradesh, Chhattisgarh)*
  - *Elephants of Old Bilaspur District (1861-1920)*
  - *Elephants of Feudatory States of Northern & Eastern Chhattisgarh and North-Eastern Madhya Pradesh: Rewa-Chang Bakhar-Korea-Surguja-Udaipur/Dharamjaigarh (1861-1920)*
  - *Territories of Marginal and Seasonal Elephant Movement in Madhya Pradesh and Chhattisgarh, with a note on the 'Mandla Rogue' (1861-1920)*
  - *Circumstantial and Anthropological Evidences of Elephant Presence from territories in Chhattisgarh and Maharashtra India where they had gone extinct in early 19th century (1800-1900)*

Conclusion
